# *The* ASPIRE SERIES

Dear ,

I am really excited to be connecting with you about how we can co-create together!

The Aspire Series is a platform for women who are leading social change and impact. We are excited and proud to present our very first global Summit in Bali, Indonesia in June 2023.

The Summit is a celebration of the strength and courage of women whose stories are life changing. As authors, their lived experiences are being taken to another level where thousands will be inspired through the publication of the first two "55 FACES" books. The first book highlights the stories of 55 women globally and the second one is a social impact project that includes the stories of over 55 Indonesian women, particularly Balinese.

My deep interest in humanity, narrative and women's work and past social work experience married during the pandemic, where being planted in Bali had me ask the question "how can I be most useful here at this time?". It is my intention that in creating a publication of solely Indonesian and Balinese women's stories, that not only will they have a very unique opportunity to share their undeniable wisdom and strength, they will also be able to offer their insights about their lives and communities.

The Summit is a three day event which features globally recognised social entrepreneurs, authors, business women and activities including the launch of both books, Gala event with awards night, cultural activities, speakers and workshops. A true Rites of Passage for many, it is anticipated that collectively, over 100 women will attend.

I am excited to count you amongst our proud advocates and co-creators of this remarkable series of events. Therefore, I wholeheartedly thank you for becoming part of our loving Aspire family.

A handwritten signature in black ink, appearing to read "Michelle Gardiner".

Michelle Gardiner  
Founder & Director  
The Aspire Series

# A B O U T   T H E   A S P I R E   S E R I E S

The Aspire Series is a movement for women who are dedicated to pioneering social change and impact as well as a methodology in facilitating change work in the community.

This has been formulated on the philosophy that we not only already have what we need to create change for ourselves, we also have what we need to create deeply meaningful change in the lives of those around us. So many of the keys to this are hidden within our stories that once drawn out, can be utilised to facilitate change. As women, it is time to step into our full capacity and to show the world, including those a few steps behind us, that it is possible to create a better future.

The Aspire Series was created four years ago by Michelle after 15 years worth of facilitation, social work and coaching experience. It is a channel for what she wanted to see created in the world. The stuff that excites her most is bringing people together, instigating epic conversations and creating and celebrating social impact and change in all of its forms.

Our lives, stories and experiences hold the keys to the change that is needed in the world. Our connection to self, others, our capacity to express and lead from this place are the instigators of impact and change that holds meaning for us, our communities and something far greater. Collectively, we can rewrite ours and other women's stories.

We cannot take the time that we are here for granted, and our legacy must be lived in each and every moment. Our chance to leave the world better is here now, and it must happen as a result of us being here.

The Aspire Series is a global platform for women who are leading social change and impact and every component of it offers the opportunity to best contribute in ways that hold meaning for them and their communities.

## ASPIRE'S VISION:

For all women to be, live and lead as bold and expansive conduits of love, integrity, and humanity.

## ASPIRE ACHIEVES THIS THROUGH:

Connection: ~ Existing Fully

Being present, heart centred and in integrity with all elements of ourselves, our story and experiences.

Expression:~ Speaking Boldly

Expanding how we interrelate, use our voice, make choices and become beacons of influence in the world.

Leadership:~ Making An Impact

Mastering and embedding our capacity to lead, role model, and amplify positive change.

## ABOUT 55 FACES

A narrative piece answering the question “what is the next story you want written for women?”. Each book features the faces, stories and experiences of 55 women. 55 FACES reflects the diversity of each woman, yet weaves together threads through pieces of their world view and lived experiences. It demonstrates that every single one of us has a perspective and ideas about how we would like to experience the world.

In answering the three questions, the women are in fact being asked to reflect on how both they and the world sees them, how they interpret the lives that they have lived and how they see their role within the broader social context. Each woman considers how, as a result of her experience in the world, she would like to see the broader experience for women evolve. Finally, each woman is asked to write her next story forward, sharing what and how she would like to experience herself and her life.

Each woman, in being published has the opportunity to feel seen, heard, honoured and acknowledged.

Two books are being published– the first highlights the stories of 55 women globally and the second highlights the stories of over 55 Balinese/Indonesian women. The global women, leaders in their own right, have supported the publishing of the local book as a Social Impact project. Many of the Balinese/Indonesian women featured would not otherwise have the opportunity to share their life experiences in this way.

Collectively, 115 women's stories are being published between the two books.

These books will lead into the founding Aspire Summit, to be hosted in Bali in between 17 – 20th June 2023, which will host an in person book launch.

All women will have the opportunity to be together,

Speaking. Sharing. Celebrating. Collaborating.

## ABOUT THE ASPIRE SUMMIT

The Summit is a three-day event which brings together women from a minimum of 10 countries who are using their stories and experiences to lead change and impact in their respective ways. This incredible event will be held at 'Soulshine Bali Resort.

Significant change happens when people with diverse ideas come together and share their lives, ideas and views around how we can better experience life.

55 FACES has been created as a conversation starter and The Aspire Summit is a space where women can connect, share their work and explore broader conversations and possibilities. The 'Aspire Summit is essentially a celebration of these women in their work and for the experiences that often influence why they do what they do. It stands as a rite of passage for women in their leadership and in stepping further into their identity, expression and leadership.

The Aspire Summit will be co-created with attendees, hosting speakers, workshops, cultural activities, a waterfall visit, and sharing spaces to support new ideas and projects coming into fruition. It is a rite of passage and initiation into leadership for the women who join us.

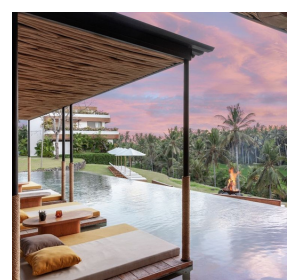

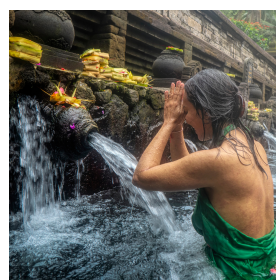

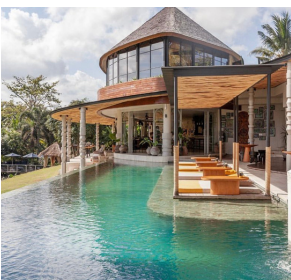

Each evening will host a different celebration. The first evening will be a sharing circle and cultural celebration, facilitated by Balinese and Indonesian women. The second evening will host the book launch, and the third night will host a Gala event and awards night for women leading change and impact.

The energy of the Summit is a combination of soulful - expansive- competency based - heartfelt - loving - fun - playful - creative - "out of the ordinary" - special - inclusive - deeply connected - open - togetherness - inspiring - real - authentic - "a luxury treat" - connected to nature - inducing a sense of possibility.

The Summit will be held in Ubud, the arts, cultural and spiritual hub of Bali, Indonesia.

Inspired by the symbolism behind the numeric value of "55". being "significant change aligned with soul purpose", the theme of the founding Summit is "We've Got Soul" and this will be thread throughout.

Much anticipation has been growing with the global women- they are excited to visit Bali, meet one another, and the local women to share this special time together.

# PURPOSE OF SPONSORSHIP

The purpose in creating sponsorship opportunities is three-fold:

1. To foster a way for other organisations and businesses to co-create and collaborate. This offers you the opportunity to be involved and to align your brand with The Aspire Series, The Aspire Summit and The 55 FACES BOOKS. This incredible impact driven initiative, has and will continue to attract a strong global community of female entrepreneurs and social advocates who are directly involved in these projects and inspired by change and impact work. Additionally, these projects are also attracting a far broader and curious audience who are interested in fundamental change around the world.
2. To support the extension and development of the social impact support offered to Balinese/Indonesian women. This can include supporting publishing, enabling them to attend their book launch and parts of the Summit and in purchasing a copy of the book for each woman.
3. To support the finalists of the Social Change and Impact awards attendance at The Summit.

“WE ALL CONTAIN A STORY, A UNIQUE EXPRESSION OF OURSELVES  
AND A VEHICLE TO BRING THIS TO THE WORLD. THIS IS YOUR  
CHANCE TO BE ONE OF A UNIQUE COLLECTIVE OF WOMEN WHO  
ARE ALL DEDICATED TO SHARING THIS SAME JOURNEY TOGETHER”  
~ MICHELLE GARDINER ~
